DX/SWL/MEDIA PROGRAMS update April 2 with A25 frequencies and times:
http://www.worldofradio.com/dxpgms.html

WORLD OF RADIO HITLIST update March 30
Hi Glenn, my latest Hitlist update.
https://www.w4uvh.net/hitlist.htm

1) Updated UTC offset notations for change to DST: Germany (HCJB Deutsch), Greece (VoG), Scotland (Radio Six), Spain (REE)
2) Australia - Reach Beyond: Updated links to frequency/broadcast schedules
3) Canada - Bible Voice: Updated links to navigate to A-25 schedules
4) Germany - Deutsche Welle: Updated link to frequency page to navigate to A-25 schedule
5) Germany - Media Broadcast: Updated Frequencies link to navigate to new A-25 schedule
6) Spain - REE: Link to frequency page updated to navigate to A-25 frequencies
7) Taiwan - R Taiwan Int: Updated link to latest programme schedule
8) USA - All links for USAGM stations (VOA, Martí, Farda, RFA, RFE/RL) have been left in place for now, pending longer term decisions on these services
9) USA - KNLS: Updated links to current pages
10) USA - WBCQ: Added links to the 2024 & 2025 archives of Allen & Angela Worldwide shows
11) USA - WRMI: Updated labels for links to A-25 programme/frequency schedules

The next update is scheduled for next week to update changes for DST in Aus/NZ. Best wishes and 73, Alan Roe

** AUSTRALIA. 11870, March 30 at 1458, S7 music, announcement in English by Reach Beyond about next program, IS and ID. HFCC shows 1450-1500 & 1500-1530, 100 kW, 320 degrees from KNX in Myanmarianese, nowhere near thisaway, but T/E advantaged. Had I tuned at 1400-1430, RBA should have aired `Wavescan` for first time, instead of Nepali (Glenn Hauser, OK, WOR)

** AZORES. 17946 USB, April 2 at 2214, selcall tones and ATC contact mentioning Santa Maria, so probably there among many others on frequency over N Atlantic and Canadian Arctic routes, per Klingenfuß 2022 (Glenn Hauser, OK, WOR)

** BELIZE. 28258 CW, March 31 at 2210, VVV DE V31HQ/B and EEEEEEEEEE - WGB list: ``28258.0 V31HQ/B - Belmopan BLZ EK57nf - #0/1 (22 Mar 2025) Note: VVV ID + grid + E × 10 - Pwr 10w``. QRZ.com: ``V31HQ Belize flag Belize, BARC Headquarter ∗ ∗ ∗ Club - Contest - Event Station ∗ Belize Amateur Radio Club, Maya Hill Rd, Blackman Eddy,
Belmopan POB159, Belize. The BEACON page you'll find here:
https://www.qrz.com/db/V31HQ/B
The Belize Amateur Radio Club shack (V31HQ) has burned down. Nobody was injured, however Andre V31DL (owner of the shack) has lost ALL equipment. If you would like to help the rebuilding of V31HQ please donate via the Donate button on the BARC website at https://barc.bz

Thanks for your generous help`` - that was almost 4 years ago; now with long list of contributors (Glenn Hauser, OK, WOR)

** BRAZIL. 15189.8, March 30 at 0123, JBA carrier, even unto indoor randomwire strung around ceilings of two rooms during lightning storm. Got to be R. Inconfidência on signature offset (Glenn Hauser, OK, WOR)

** BRAZIL. 6180-, April 1 at 0147, too weak and off-frequency, so to 11780 for much-publicized new English & Spanish segments from RNA. S9+5/25 direct with deep fading. It`s already in Spanish, apparently a saludos call from someone about the Spanish about to start. Brazuguese DJ replies and says good-night. 0148 YL ID in English, interview with someone in Pará in November, about the culture of Pará and Amazonia. Voice-over translation, with PP QRM in the background! Please, SW reception is hard enough without self-QRM. We`ll trust you to be translating accurately! Besides, even a native could not follow the underspeech, just loud enough to be annoying. 0153 ID as Radio Nacional Brasil International Service, Portuguese ID, Spanish, apparently same topic, voice-over this time in Spanish with Brazilian accent. 0157 pause for a few words of unobstructed Brazuguese, and wrapup. 0157 Portuguese ID as RNB Serviço Internacional, and RNA on 6180, 11780, website, 980. 0158 R Nacional jingle and other music until 0200 some other PP program. Well, we`re glad they are making the effort to speak a bit of our language, but hope it improves (Glenn Hauser, OK, WOR)

** BRAZIL. 11780.009, April 2 at 0149, RNA with another English segment, S9/+10 into Georgia SDR, part 2 of last night`s interview with culture minister of Pará state, something about urbanity, forests and islands. This time the original sound seems faded down completely during English translation, once ``established``. 0154 Brazuguese ID, then same in Spanish with Brazilian accent. 0158 outro, s/off of 6180 & 11780, ref to web and MW 980 and off* by 0200 (Glenn Hauser, OK, WOR)

** CANADA. 328 MCW kHz, April 1 at 0647 UT, dash and YTL, 1000-watt NDB at Big Trout Lake ON; I was tuned to 329 and hearing only this instead of usual PMV, 25 watts at Plattsmouth NE. Canadians in? One other JBA now, of course:

346 MCW kHz, April 1 at 0649, YXL, 1000 watts at Sioux Lookout ON. BTW, these two are 438 km = 272 stmi apart in almost the same direxion from here, YTL being the further one closer to Hudson Bay, on the shore of the lake called Big Trout Lake, which is 2034 km = 1264 stmi from here (Glenn Hauser, OK, WOR)

** CANADA. 2749 USB, March 31 at 0635, YL marine weather JBA in noise level, nothing on 2598. Extensive sked at https://www.ccg-gcc.gc.ca/publications/mcts-sctm/ramn-arnm/part2-eng.html shows nothing on 2749 at this hour, i.e. between starts at 0437 by VCF Les Escoumins, and 0740 UT by VCO Port Caledonia. Similar in EiBi. So now I`m wondering if the whole sked be really an hour earlier after the imposition of DST, or is this an urgent special unscheduled (Glenn Hauser, OK, WOR)

** CHINA. 9540, March 30 at 1459, Chinese, S6/S8. HFCC A25 shows 1500-1530 only, CNR in Zho = Chinese, 150 kW at 340 degrees. EiBi A25 shows this span only is to jam RTI in Cantonese, but SOH is also on 9540 for much longer hours (Glenn Hauser, OK, WOR)

** CHINA. 13690, April 2 at 2218, S9+10/20 with heavy flutter, hi-pitched singing, Chinese? announcement, then definitely Spanish. HFCC shows CRI at 2100-2300, 500 kW, 315 degrees from SZG site = Shijiazhuang, which is just SW of Beijing per WRTH map, to CIRAF 37NW

= Spain (Glenn Hauser, OK, WOR)

** CUBA [and non]. 1040 kHz, March 28 at 0639 UT, wobbler below WHO. No others at the moment, like 550, 650, 870 (Glenn Hauser, OK, WOR)

** CUBA [non]. 9490, March 30 at 0132, R. República announcing its sked daily 9-10 pm on 9490, M-F also 10-11 pm on 5800. I.e. in EDT, so 01-02 UT daily 9490 via FRANCE; 02-03 UT Tue-Sat on 5800 WRMI. No jamming audible now, as it seems DCJC has stopped all jamming? not just of gone R. Martí on SW (Glenn Hauser, OK, WOR)

** CUBA [non]. 11860, 11930, 13820, March 27 at 1955, R. Martí still absent from Greenville SW, altho reportedly has resumed on MW 1180 from FlaKeys (Glenn Hauser, OK, WORLD OF RADIO 2288)

** FRANCE. 9605-9610-9615, April 2 at 0607, DRM noise at S9+25. HFCC shows irregular from TDF ISS, two different entries at 06-07, both expiring 010625 = 1 June instead of entire A25 season to 261025: 100 kW, 280 degrees for CIRAF 27W = British Isles; and 100 kW, 232 degrees for CIRAF 36,37W,46W = W Africa and adjacent Atlantic (Glenn Hauser, OK, WOR)

** FRANCE. 21705-21710-21715, April 2 at 1455, DRM noise is the OSOB. HFCC shows TDF ISS at 0500-1700, 150 kW at 110 degrees to CIRAFs 44SW,49NE,49S,50,54 = SE Asia (Glenn Hauser, OK, WOR)

** GUADELOUPE. 28520 USB, March 31 at 2216, FG5GP, says 100 watts, working an AA7 mobile. QRZ.com: ``FG5GP Guadeloupe flag Guadeloupe, ALAIN ROBERT, 14 LOT LES COLIBRIS CONVENANCE, 97122 BAIE MAHAULT, Guadeloupe`` (Glenn Hauser, OK, WOR)

** GUAM. 11590, Thu Mar 27 at 1443, TWR IS, announcement. Aoki shows KTWR at 1415-1445 in Uyghur on Mon/Tue/Wed/Thu only, followed by Kazakh daily from 1445. Haven`t the Uighurs got enough problems with cultural genocide by the ChiCom, without being pestered to become Christians as well? Would the ChiCom have a preference? (Glenn Hauser, OK, WOR)

** JAPAN. 13860, March 30 at 0656, Japanese at S8/S9. HFCC A25 shows 07-09, on two Yamata transmitters of 300 kW each, same antenna type 208, at 55 and 85 degrees both for CIRAFs 14 & 16 = Argentina & Chile before sunrise - so are they alternates or really both at once? Another 13860 pair at 12-13 at 290 & 305 degrees on different antennas, 145 and 208 (Glenn Hauser, OK, WOR)

** KOREA SOUTH [non]. 11880, March 30 at 0134, Spanish at S9+15 still here, KBSWR via Woofferton UK, ex-Greenville. On the edge of A25, so further chex needed as Alan Holder points out this is missing from their A25 sked:

``Unless there is a last minute change, 11880 kHz 0100-0200 UTC (WOF, ex GR) has been deleted. So no more relay in Spanish for South America. Only direct broadcasts from KOR site for Spanish. Alan Holder, G4ZBH, Isle of Wight, U.K.``

Via Alexander Miatlikov:
Booklet
https://world.kbs.co.kr/service/common/images/about/frequency_250330.pdf
Bargraph
https://world.kbs.co.kr/service/common/images/about/shortwave_250330.pdf

However, 11880 WOF 01-02 remains in HFCC A25 for the entire season, so perhaps overlooked in own sked; why go to trouble of moving it from GB to WOF only to cancel it? (Glenn Hauser, OK, WOR)

** KOREA SOUTH [non]. 11880, Mar 31 at 0113 check into Maryland SDR, KBSWR in Spanish is still on second day of A25 despite missing from own schedule, Woofferton relay presenting K-pop, VG S9+5/15 (Glenn Hauser, OK, WOR)

** KURDISTAN [non]. 11540, March 27 at 1442, choral martial music, S7/S9, must be Turkish jammer; only that and Dengê Gel via ARMENIA are listed anywhen on 11540 by EiBi. Aoki has Turkey only, but many adjacent Dengê Gel listings allegedly via Uzbekistan: an age-old conundrum. No sign of a second signal now, so DG may well be somewhere else.

Has there been any reduxion in DG broadcasting and/or jamming as a result of this, as reported by DW?: ``Mar 1, 2025 #pkk #abdullahöcalan --- Kurdish PKK militants have declared a ceasefire with Turkey two days after their jailed leader asked them to lay down their arms. Abdullah Öcalan urged fellow members of his outlawed Kurdistan Workers' Party to disarm and disband. The group, which has fought for autonomy since the 1980s, is considered a terrorist organization in the EU, US and Turkey. Turkish President Recep Tayyip Erdogan {sic} welcomed Öcalan's overture, but warned against what he called provocations aiming to disrupt peace efforts`` (Glenn Hauser, OK, WORLD OF RADIO 2288)

** MADAGASCAR. 17700, Thu March 27 at 1412, YL talk, VP S5/S7 direct but the OSOB, off by 1437 recheck. Aoki shows TWR Asia via Talata. Lang depends on DOW; on day 5 = Thu at 1400-1430* it`s Hindi. In depressed propagation, K=4.67 at 1500, after G2 geomagnetic storms, exercises its low-latitude transequatorial advantage, even tho very offbeam thisaway, 250 kW at 45 degrees (Glenn Hauser, OK, WOR)

** MADAGASCAR. 15440, March 30 at 1454, S Asian language at S6/S8 is the SSOB: HFCC A25 shows TWR in Urdu, 1430-1500, 250 kW at 35 degrees, nowhere near thisaway but T/E advantaged (Glenn Hauser, OK, WOR)

** MEXICO. 1549.815 kHz, March 28 at 0610 UT, I finally compare the off-frequency het believed to be from XEREL Morelia, to my keyboard = F# below Cmiddle, 185 Hz per https://homes.luddy.indiana.edu/donbyrd/Teach/MusicalPitchesTable.htm Previous estimates were 1549.82 but I could tell it was not .820 precisely (Glenn Hauser, OK, WOR)

** MEXICO. 1549.82 or .83, April 1 at 0700, still hearing that het against 1550 stations, presumed XEREL Morelia (Glenn Hauser, OK, WOR)

** MEXICO. 28171 CW, March 31 at 2205, beacon XE1FAS/B is JBA with fades, preceded by 4 dashes. It`s missing from WGB, today`s update at https://listof10mbeacon.blogspot.com/2023/06/worldwide-list-of-10-meter-beacon.html How about the older WI5V list? That website is now intercepted as unsafe. I know I`ve heard this one before, in 2022, 2023 and 2024, as on Feb 28 last year, q.v.: he`s in Puebla with lots of info still at https://www.qrz.com/db/XE1FAS

28182+ CW, March 31 at 2207, beacon, dash and VVV XE1RCS/B. This one also missing from WGB list! But QRZ.com: ``XE1RCS Mexico flag Mexico, Radio Club Satélite A.C., Apartado Postal 341-A, Ciudad Satélite, Naucalpan, Edo Mex 53100, Mexico`` and: ``XE1RCS beacons on 28.182 and 50.019 Mhz. now transmiting from new site, Cerro Gordo about 70 kms. northeast from Mexico City. This new site, Cerro Gordo is about 3100 mts. above sea level, near Teotihuacan piramids. The site is owned by Radio Club Satelite. XE1RCS/B on 28.182 Mhz. has an AR-10 antenna with 8 watts, and on 50.019 has an AR-6 with 50 watts. All the antennas are mounted in a 40 mts. tower with surge protection and battery backup.``

28276 CW, March 31 at 2214, dash and XE1JAL/B. This one is on the WGB list: ``28276.0 XE1JAL/B - Xalapa Veracruz MEX EK19mm - #0/1 (26 Mar 2025) Note: ID + grid + 3" carrier`` - and QRZ.com: ``XE1JAL Mexico flag Mexico, Mario Rizo Campomanes, Calle Francisco Navarrete No. 8 - B , Colonia Tamborrel, Xalapa - Enriquez, Veracruz, Codigo Postal 91050, Mexico`` (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13690, March 30 at 0655, S9+15/20, RNZ National ID with timecheck ``before 8``, so still for another week on nonsensical DST of UT+13, ex-13755. A25 sked shows 0558-0958, then 11725 to 1258, 7440 till 1650; and preceded by 17675 from 2059 (Glenn Hauser, OK, WOR)

** NEW ZEALAND. 13690, March 31 at 0620, sports on BBCWS, S8/S9; obviously relay of RNZN via RNZP (Glenn Hauser OK, WOR)

** NORTH AMERICA. 6935 AM, April 1 at 2344, pirate music JBA vs HNL. These say it`s Thunder Chicken Radio: https://www.hfunderground.com/board/index.php/topic,142979.0.html (Glenn Hauser, OK, WOR)

** OKLAHOMA. 1670 kHz, April 2 at 1942 UT, Virtual DJ Radio low-power relay circa junxion of US81 & US412 in Enid, on the air as always, playing `Ghost Riders in the Sky` and then `Big John` (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.1 FM, April 2 at 1900 UT, FINALLY, dead air in $tereo is off the air in downtown Enid; carrier was still running as of a few days ago, more than 3 months after Xmas with music to accompany OG&E`s `tree of lights` just north of the Garfield County courthouse. Now the coast is clear for CP of KOKJ-LP on 95.1, altho I have not heard anything from the guy behind it as to progress. If, that is, the other 95.1, stay gone (Glenn Hauser, Enid, WOR)

** OKLAHOMA. Surprised to see this in Mike Bugaj`s daily FCC update for Thursday March 28 {sic, March 27} on the WTFDA FMDX-NA list:
KJAL 91.9 McAlister OK ex KBCW-FM
KJAR 95.9 Woodward OK ex KCSC-FM
WTFDA FM Database already has the new calls, and supposedly still classical like 90.1 KUCO, but not specified as relaying it. However, FCC, both AM Query and LMS show both calls only as D-eleted somewhere else! So I Contact KUCO: ``Please explain what`s going on with McAlester & Woodward. FCC info shows these have new calls, KJAL and KJAR, and I no longer hear KBCW or KCSC mentioned on your IDs for KUCO. Have you sold them off to EMF or something?`` Under normal conditions I can`t hear either of them in Enid; think I heard 95.9 under a previous previous call when tropo were up (Glenn Hauser, OK, WOR)

** OKLAHOMA. Here is FCC `paperwork` regarding transfer of KBCW & KCSC from KUCO to something called The Christian Center, Lawton OK, dating back to Dec 6, 2024:
https://enterpriseefiling.fcc.gov/dataentry/views/public/assignmentDraftCopy?displayType=html&appKey=25076f91936ff50701938cdac8eb0eb9&id=25076f91936ff50701938cdac8eb0eb9&goBack=N

And there is a separate Notice of Consummation dated March 24, 2025, so just happened. And then the call change.

Thus KUCO has abandoned its FM listeners in NW and SE OK, turning over the stations to gospel huxters, as if we need any more of those infesting the bands! What does KUCO get out of it, in $$? The Christian Center already owns KJRF 91.1, 100 kW, Lawton, ``King Jesus Reigns Forever`` so KJAL & KJAR have got to stand for something along

those lines: King Jesus Always Lives? King Jesus A Reigner? Ringer? (Glenn Hauser, OK, WOR) {no replies from KUCO}

** ROMANIA. 11945, 0135 UT Sun Mar 30, classical piano music, pieces briefer than the Romanian announcements between, such as 0138, i.e. RRI now in A25, 00-02, 310 degrees from Galbeni. Alan Roe`s Music on Shortwave as of Jan shows this as `Radio Concert Season (Classical music)` when it was an hour later at 0200-0256 UT Sundays on 9700 (Glenn Hauser, OK, WOR)

** ROMANIA. 11820, 0254 UT Sun Mar 30, pop music, VG S9+30 direct, the SSOB and OOFSOB. A25 HFCC shows RRI Spanish at 02-03, 300 kW, 310 degrees from Galbeni for
CIRAF 10 = Mexico. Also 11780 as alternate? and from Tsiganeshti on 15130 or 17760 unchecked yet. YET, then recites entire *B24* SS sked with now all-wrong times and frequencies, such as this hour at 03-04 on 9740 & 9545; oops (Glenn Hauser, OK, WOR)

** SPAIN. 9690 S9+10/30, 12030 S9/+10, 17715 S5/S8, 17755 JBA S3/S6, Fri Mar 28 at 2300, token English from SNR active on all 4; again delivers A25 overall sked with no language details, let alone inglés, but henceforth should be M/W/F at 2200 on 15500 > 15520 > 17715 > 15390. Missed topic preview, but no time to listen anyway, after 2303 news starting with earthquake (Glenn Hauser, OK, WOR)

** SPAIN. Sunday March 30, first day of A25, checking REE new frequencies at 2214 in Spanish, which would be amid English on M/W/F: into Maryland SDR, 15500 S9+10/20 for us; 15520 S8/9+5 almost as good off the back for ME; 17715 S7/S9 for S America; but no signal on 15390 for Africa - I casually checked a couple hours earlier, and I think 15390 was on then. Look forward to 15520 as backup for inevitable failures of 15500 (Glenn Hauser, OK, WOR)

** SPAIN. 15500, March 31 at 2159, NO signal on NF to N America from SNR for first M/W/F token English broadcast of season. Like I said yesterday, looking forward to 15520 as backup altho off the back toward ME, and that one is S7/S9; but 17715 to S America is even better, S9+20. And 15390 for Africa is also AWOL! Something`s always notright at Noblejas. Opens with different music and A25 general frequency schedule with no details of language times, not even English! 2202 s/on English, preview later content I can`t copy; 2203 news leading with mining accident in Asturias killing at least 5 (Glenn Hauser, OK, WOR)

** SPAIN. 15500 & 15390, April 2 at 2159, again today, 50% of REE transmitters are missing; but 17715 for S America is VG direct, S9+10/20 but seems slightly overmodulatedistorted, better than 15520 for ME at S8/9+10. Again opens with A25 overall sked but no language details. 2202 preview feature something about Extremadura. 2203 news opens with EU reaxion to Drumpf tariffs (Glenn Hauser, OK, WOR)

** TURKEY. 5960.004-, Mar 28 at 2257, VOT not off the air, IS and ID, S9+45 into UTwente. 2300 sign/on by Efsun the axentuated as if it`s 1330 on 13635, awry, and she also voices the olds, so that`s enough for me (Glenn Hauser, OK, WOR)

** TURKEY. 5960, Mar 29 circa 2330, VOT not off the air, VG into UTwente. From March 30, should be at 2200-2255v on 11785, or mistaken 9875 extended from 2130 (Glenn Hauser, OK, WOR)

** TURKEY [and non]. 9874.967, Sun Mar 30 at 2048 tune-in via UTwente, all I hear are the last few notes of the North Korean national anthem. This is about when `Letterbox` from Voice of Turkey should be appearing on its new A25 frequency 9875 and time ex-an hour later on 9610. It`s KCBS as in B24 Aoki until 2050*, never, of course in HFCC.

VOT off to a great start. O, Wolfgang Bueschel says VOT was axually on 9870 :Somethings always erroneous at Emirler: but in this case a good idea to avoid DPRK.

11785, Sun Mar 30 at 2200 tune-in, new A25 frequency and time for VOT English to N America. Quite a strong signal with VOT news sounder, then gone! Drops off the air, and never comes back during following hour. Off to another even ``greater`` start. Next chance: 0315~ UT Monday on 7275 thisaway and 6165 thataway (Glenn Hauser, OK, WOR)

** TURKEY. 7275, UT Mon Mar 31 at 0302 tune-in, VOT new A25 time and frequency for W N America, dead air at S9+35 into UTwente and off* in a few seconds, never to return during hour. This keeps happening, why? Something`s always erroneous at Emirler. BTW, 7275 is an INTRUDER into the WHem hamband. HFCC okays that?

Then retune to 6165.002 which goes thataway, S9+10/25 and noisy, much inferior, also with RTTY warble on minus side, so USB tuning absolutely required. After olds, 0314 retune, brief transmission break, and TRTVOTVorld.com promo; 0315 `The Pulse of Turkish Foreign Policy`, yawn. 0323 ``always-by-your-side`` promo, music. 0329 `Letterbox` theme, opening. Same YL host, frequencies changed, ask for details by email. It`s also Eid, first day of end of Ramadan. 1) Angus? -?, Canada. 2) Christer Brunström, Sweden, who is surprised there was no mention of the arrest of mayor of Istanbul, and demonstrations. She claims they *did* report it on Wednesday in English and all other broadcasts, and some excuse about this being an external service? 3) Siddartha ---, 24/3 anniversary of something, maybe polio vaccine? Incidence of something in Turkey. 0336 song break. 4) at 0340, Mohammed -- from Malaysia. 5) Jayanta Chakraborty, India {even he is uncertain of spelling: in dxindia posts also as Chakrabarty}. 6) and last, -- Kelly, USA. Most or all of them request QSLs. 0344 song. 0348 `L`Box` theme outro, music. 0352 s/off - missed what time and frequency they misannounced, likely 1230 on 17620. 0353 IS to 0356* (Glenn Hauser, OK, WOR)

** TURKEY. 11785, March 31 at 2158, VOT not off the air, S8/S9 but JBA vs my local noise level, IS and English IDs, so I go over to SPAIN instead as these two insist on colliding timewise. At 2238, 11785.006 is S9+20/30 into Georgia SDR, so not needing to check it at UTwente. Uncomfortably close to 11780 Brasil (Glenn Hauser, OK, WOR)

** TURKEY. 9875.005+, April 1 at 2044, VOT on registered A25 frequency instead of 9870 yesterday which evaded Korea North on 9875 - don`t detect it today, but its s/off anyway is 2050. 2048 `First Quarter of the Millennium` to 2057 then music. Sufficient into UTwente.

11785.002, next VOT English of 2200 is not off the air, not checked until 2234 April 1, S9+5/10 into Maryland SDR, with feature voiced by Efsun the axentuated. Considerably weaker than 11780 Brasil, S9+10/25 providing ACI, not even evitable by USB tuning. 2254 s/off as if it were 1230 on 17620, the usual always awry at Ankara (Glenn Hauser, OK, WOR)

** TURKEY. 17815, April 2 at 1457, Turkish talk, music at S5/S7. HFCC shows 1300-1600 TRT, 250 kW, 310 degrees for CIRAF 27,28 = W and C Europe; and USward beyond (Glenn Hauser, OK, WOR)

** TURKEY. 9875.003-, April 2 at 2032, VOT VG S9+25/35; but some choral CCI from Korea North underaudible at 2037. Not going back to 9870 as on March 30? (Glenn Hauser, OK, WOR)

** TURKEY. 11784.999, April 2 at 2158, VOT IS & ID in English, S9+10/12 direct vs S8/9 noise level, unlistenable. At 2241 into UTwente, when measured, surprisingly not solid at all, S9/+10 with

flutter; skipping over? So trying NH SDR, showing 11785.006, S9+20/35 much better with music. 2248 break in carrier for a few sex. 2253 s/off as if it`s 1230 on 17620, awry at Ankara, IS to 2255.5* (Glenn Hauser, OK, WOR)

** U K O G B A N I [non]. 9915, March 31 at 0616, English S5/S7, BBC? Yes, //9410 about the same. 9915 is a longtime BBCWS channel but had not been hearing it in B24 season. Now in A25 it`s scheduled *only* for this one hour, via ASCENSION, 125 kW at 65 degrees. 9410 is also ASC at 05-07, 27 degrees. 125 kW powers must be semi-transmitters (Glenn Hauser, OK, WOR) See also NEW ZEALAND

** U S A. Some not-always-audible NDBs, besides the two from CANADA, q.v.:
392 MCW kHz, April 1 at 0652, FMZ, 25 watts at `Beklof` Fairmont NE; and:
400 MCW kHz, April 1 at 0653 UT, AHQ, 0 watts = unknown default, at Wahoo NE (Glenn Hauser, OK, WOR)

** U S A. 8992 USB, March 31 at 1543, long alfanumeric fonetik crypto message military exercise, ending with ``This is Vulnerable, out`` (Glenn Hauser, OK, WOR)

** U S A. 28222+ CW, April 2 at 204, dash and VVV DE W1DLO/B alternating slow and fast rates. WGB list: ``28221.5 W1DLO/B - Calais ME USA FN65je - #0/1/2 (31 Mar 2025) Note: VVV de ID + grid + Calais Maine + 9" carrier``. QRZ.com: ``W1DLO USA flag USA, Daniel L Owen, 27 Roundstone Dr, Glenburn, ME 04401-1209, USA``, with huge list of equipment and: ``10m CW propagation beacon``:
http://qsl.net/w1dlo/beacon
including 10 watts, 20 and 5 wpm. I really think it was slightly above 28222, not below (Glenn Hauser, OK, WOR)

** U S A. 28243 CW, March 31 at 2209, VVV DE AA1SU/B and EEEEEE -- Unlike the Mexicans, this one does appear in the WGB list: ``28243.0 AA1SU/B - Essex Junction VT USA FN34°° - #0/1/2 (02 Mar 2025)  Note: VVV de AA1SU/B + FN34 VT + E × 6`` And QRZ.com: ``AA1SU/B USA flag USA, PAUL N GAYET, 11 CHERRY STREET, ESSEX JUNCTION, VT 05452``

28249.5 CW, March 31 at 2210, DE KA3JOE/B and EEEEE. WGB list: ``28249.5 KA3JOE/BCN - Bensalem PA USA FN29mb - #0/2/3 (26 Mar 2025) Note: de ID only + E × 5`` QRZ.com: ``KA3JOE USA flag USA, Joseph W Ciesielski, 1176 Poquessing Avenue, ANDALUSIA, PA 19020 - WELCOME TO THE KA3JOE BEACON !! Thanks for tuning in! The KA3JOE beacon operates continuously on a frequency of 28.248.7 Mhz, at a power level of 5 watts.The transmitter is an HTX-10 fed into a half wave vertical at a height of 10 meters. I would perfer a good, old fashioned, tree killing, non-electronic QSL, SASE to my QRZ address, but I will also respond with an email promptly. It's more fun to receive QSL Cards in the regular mail. I have been interested in radio since I was 12 years old. Like many, I started out on CB radio but got bored of that scene quickly. I then discovered cars, girls, work, etc. and got side-tracked. Finally, getting licensed at the age of 36 I rekindled my interest in radio and have been playing with it ever since. Thanks again for tuning in to the KA3JOE 10 METER BEACON @ 28.248.7 MHZ Please QSL, SASE to my QRZ address. Thank You & 73 Joe``

I`m afraid I had it on the plus side of 28249 like in WGB list, not on the minus side as in his QRZ.com page (Glenn Hauser, OK, WOR)

** U S A. CBS TV 60 MINUTES, March 30 about 2355 UT as the second of three stories after a late start, is about VOA, interviewing Steve Herman, and Patsy W-, the Indonesian lady. And later the only Republican congressperson, of Korean heritage, who objects to Trump`s assassination of VOA. Briefly Dan Robinson`s name can be seen on a

screen shot of the WH website crediting him with denouncing it as ``radical``. Should be available online from CBS or YT later if you missed it. I alerted the WOR iog about this in advance. Yes, here it is already, two hours later, 13-minute audiovideo and transcript: https://www.cbsnews.com/news/voice-of-america-journalists-speak-out-trump-shutdown-60-minutes-transcript/
(Glenn Hauser, OK, WOR)

** U S A. I keep getting spammed by those wanting to ``help`` WOR stop being ignored on YouTube. Guess what, I am not in it for $$ or to amass `views`, but as an alternative way to hear WOR besides other podcasts or even on the air. Feel free to access any of the last 13 programs:
https://www.youtube.com/@WorldofRadio
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2287 monitoring: confirmed UT Thursday March 27 at 0130 on WRMI 5010, S9+10 into Maryland SDR.

Missed checking Thu Mar 27 at 1730 on SW Radio, Germany, 6160; anyone hear it? From next week: 1630

WORLD OF RADIO 2288 contents: *Alaska, (Armenia), *Brasil, Canada and non, China, Cuba and non, Czechia, (Djibouti), Ecuador, Ethiopia, (France), Germany and non, Italy, Korea South and non, Kurdistan non, Kuwait, (Liberia), (Lithuania), Luxembourg, *Madagascar, Malaysia, Netherlands, *New Zealand, (Oman), Philippines and non, *Romania, *Spain, (Tajikistan), (Thailand), (Turkey), UAE, UK and non, USA and non, Zimbabwe non; propagation outlook - (countries mentioned along with others not in order) *with A25 English schedules

WOR 2288 available from 0058 UT Friday March 28

1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO SCHEDULES UPDATED FOR A25 times and frequencies from March 30:
http://www.worldofradio.com/radioskd.html

WORLD OF RADIO 2288 monitoring: confirmed Friday March 28 at 2158 the 2130 on IRRS SW via AM Italia, 1323v kHz, fair into UTwente across Europe. From next week: 2030.

Also confirmed Friday March 28 at 2200 on WRMI 9955, JBA direct; better S9/+12 into Maryland remote at 2228.

Also confirmed Friday March 28 at 2330 on SW Radio, Germany, 3975.004-, S9/+10 into UTwente. From next week: 2230.

Not confirmed UT Sat Mar 29 at 0300 on WTWW as 5085 is still off the air. Next week?

Confirmed Saturday March 29 at 1530 on SW Radio, Germany, 6160.002-, S9/+10 into UTwente. From next week: 1430.

Confirmed Saturday March 29 at 1700 on WRN North America webcast; from

next week: 1600.

Confirmed Saturday March 29 at 1853 the 1830 on SW Radio, Germany, 3975.003, S9+5 into UTwente [while 6160 with CRI music fill, German scheduled]

Missed checking Sat Mar 29 1930v on WA0RCR, 1860 AM, MO; anyone hear it?

Also confirmed Saturday March 29 at 2039 the 2030 on WRN North America webcast. From next week: 1930.

Also confirmed Saturday March 29 at 2110 the 2100 on WRN Europe webcast. From next week: 2000. Next:

0230vUT Sunday WA0RCR 1860-AM [nominal 0315; as late as 0400];
1030 UT Sunday WRMI 9955 to SSE [also web-, phonecast];
1900 UT Sunday IRRS 1323-Italy;
2130 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW & 7780 to SW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2288 monitoring: confirmed UT Sunday March 30 at 0320 on WA0RCR, 1860 AM, MO, about 11 minutes into so the 0315v started early circa 0309, S9+20 into nearby SDR vs high storm noise level even there and not really readable direct.

Also confirmed Sunday March 30 at 1900 on IRRS SW via AM Italia, 1322.996+ kHz, S9+7 into UTwente, after s/off announcement for 7275. Next:

2130 UT Sunday SW Radio, Germany 3975;
2330 UT Sunday WRMI 7570 to NW & 7780 to SW;
0030 UT Monday WRMI 7780 to SW;
0830 UT Monday SW Radio, Germany 6160;
1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2288 monitoring: confirmed Sunday March 30 at 2130 on SW Radio, Germany, 3975.002+, S9+5/10 into UTwente.

Also confirmed Sunday March 30 at 2330 on WRMI 7780, S7/9+5 into Maryland SDR, but instead of usual // on 7570, something else there, seems like TOMBS. 7780 at 2342 also into S TX SDR, S9+15/30 with storm crashes. At 2344 I am also getting WOR on 7570 into S Texas, S9+10/20, but further chex of other remotes find WOR NOT on 7570. Maybe I am confused by switching among too many Kiwis at once? Or WRMI is switching back and forth, unlikely. Anyhow, WRMI skedgrid shows 7570 supposed to be on System G at this hour, but System G thinx it`s only on 9395. WOR still shows at 2330 Sunday on System D, WRMI-13 7780. What a confusing situation.

Also confirmed UT Monday March 31 at 0030 on WRMI 7780, S9+35 into S Texas SDR.

Also confirmed UT Monday March 31 from 0300 sharp on Area 51 webcast, whilst 5130- WBCQ into NH remote had already switched to music after JL gotta-go.

1930 UT Monday SW Radio, Germany 3975 & 6160;
0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2288 monitoring: confirmed Monday March 31 at 1930 on SW Radio, Germany, 3975.003-, S9+5/10 into UTwente. Next:

0330 UT Tuesday WRMI 7780 to SW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS 1323-Italy;
2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;
1630 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2288 monitoring: confirmed UT Tuesday April 1 at 0330 on WRMI 7780, S6/S8 into Maryland SDR.

Also confirmed Tuesday April 1 at 1311 the 1300 on WRMI 9955, S8/S9 direct and undermodulated.

Also confirmed Tuesday April 1 at 1411 & 1423 the 1400 on WRMI 9955, S6/S9 JBA direct.

Also confirmed Tuesday April 1 at 2000 on IRRS SW via AM Italia, 1322.996+, S9 into UTwente but with considerable ACI from 1314 or 1332, not investigated. Next:

2330 UT Tuesday WRMI 9395 to NNW;
2330 UT Tuesday SW Radio, Germany 3975;
1930 UT Wednesday SW Radio, Germany 3975 & 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
0130 UT Thursday WRMI 5010 to S;

1630 UT Thursday SW Radio, Germany 3975.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2288 monitoring: ``Richard Lemke, St. Albert, Alberta, Canada, From the desk of Richard's listening Post, Radio: JRC NRD-535 HF (30 years of service), Antenna: random long wires in the trees. WRMI, USA, World of Radio #2288, 9395 kHz, QRN, 2330 (45433), below S7 signal; very unsettled (45433), S6, S7, voice heard at any ID pulling out difficult, much better at 2359, voice heard, April 1 UTC 2025 [Wed] (Lemke, Richard -AB)``

Confirmed Tuesday April 1 at 2334 the 2330 on WRMI 9395, S9+20/30 direct including noise level.

Missed checking same time on SW Radio, Germany, 3975; anyone hear it?

Confirmed Wednesday April 2 at 1930 on SW Radio, Germany, 3975.002-, S8/9+5 into UTwente.

Also confirmed Wednesday April 2 at 2100 on WBCQ 7490 -77 Hz = 7489.923, S9/+10 into Maryland SDR. Next:

0130 UT Thursday WRMI 5010 to S {confirmed};
1630 UT Thursday SW Radio, Germany 3975.

Financial support appreciated for our non-commercial public service program: thanks for a contribution from Philip Erickson, ``for support of SWL and WOR from a listener since 1977``, via PayPal in US funds but not necessarily, to woradio at yahoo.com

One may also contribute via MO or check on a US bank to: Glenn Hauser, P O Box 1684, Enid OK 73702 (Glenn Hauser, OK, WOR)

** U S A. 9917 & 9943 approx., parasitic spurs from huge WTWW 9930 signal with TOMBS, not measured precisely but just like happens around 5085 when it`s active, supposedly two different transmitters (Glenn Hauser, OK, WOR)

** U S A. 7780 & 5010, March 31 at 0627, NO signals from these WRMIs, very unusual; while still nominal on 7730.

9395 // 9955, March 31 at 0631-0633+, canned WRMI IDs looping over and over, and slightly overlapping each other, rather than regular programming; which did continue on only other frequencies on air now, 5850 TOMBS & 7730. Something`s odd at Okeechobee (Glenn Hauser, OK, WOR)

** U S A. 5800, April 1 at 0104, and still 0111, this WRMI is dead air. All others are modulating some somewhat underish: 5010, 5050, 5850, 5950, 7570, 7730, 7780, 9395, 9455, 9955, 15770. Even if only one human be overhearing them, even remotedly, you`d think there would be silence-sensors to warn immediately of such a breakdown. WRMI-10 is supposed to be on System H at 0100-0130 daily with R. Taiwán Internacional. 0147 still dead air, Slovakia sked this semihour (Glenn Hauser, OK, WOR)

** U S A. 7780, April 1 at 0640, and 5010, April 1 at 0644, these WRMIs are off again, while 5950 is ON with TOMBS // 5850. Something`s odd at Okeechobee.

15770, April 1 at 0641, this WRMI is not only on, but surprisingly strong in the nightmiddle, S9+10 in Spanish about Checa, so R. Praga Internacional relay? No, Eslovaquia is sked every night at 0630-0700 on System H, with Prague in English at 0600-0630 Mon & Tue only (Glenn

Hauser, OK, WOR)

** U S A. Pre-`AAAWWW` chex of WBCQs, Fri Mar 28 at 2347 into Maryland SDR: 9330.00, S9+15/25 WLCR in Brazuguese; 7490 -76 Hz = 7489.924, S9+10/20 FKB; 6160, 5130, 3215 all OFF. At *2355, 5130 -39 Hz = 5129.961 cuts on with IS & ID loop; and 6160 -71 Hz = 6159.929 is open carrier of S7/S9, by 2359 S6/S8 with music vs stormcrashes. UT Sat Mar 29 at 0000, 7490-, 9330 and 5130- join for `WTO` theme, and 6160- modulates something else. First interjexion of this new live edition is ``what the heck``, later ``the last of the free speech media``. Lots of conversation between A&A this time, in favor of Social Security once the 300-year-olds are weeded out, Angela axually believes that? anti-Income Tax. 0011, ``we do get a little political`` but a later emailer or phoner wishes they wouldn`t, driving away half their audience. They are boycotting restaurants after a lunch for two in Orlando cost $95, so on strike. Angela weighs 100 lbs, Allan 150, so they don`t eat a lot. 0018 says on 5, 7 and 9 MHz but not uttering ``trimulcasting``. Invites tune requests. 0020 plays a C&W lovesong dedicated to Angela. 0024-0030 long call from Norm in S Florida, ``Mr Transistor``. Again plugs their air rates having not gone up since station began in *1998y -- not even adjusted for inflation? Instead rely on automation to keep costs down. 0039 datestamp as 28 of March, YOOLF 2025. 0040 & 0049 more tunes, gab, emails, FRW not arrived in time to quote, prayer and off around 0100. Then I check 5130- and it stays on with music until 0103*, as automated? (Glenn Hauser, OK, WOR)

** U S A. 12050, March 30 at 0253, Spanish song S9; and also at 1456 Spanish about Jesús, only S6/S7. So WEWN expanded to long hours, at least 14-03 UT. In HFCC, available 14-06, 100 kW at 155 degrees. Still no English on 15610 or anywhere (Glenn Hauser, OK, WOR)

** U S A. 7505, March 30 at 0259, no signal from WRNO nor earlier; what`s wrong? (Glenn Hauser, OK, WOR)

** U S A. 7505, April 1 at 0107, WRNO is off again tonight. What`s wrong? (Glenn Hauser, OK, WOR)

** U S A. (12160), Sat Mar 29 at 1700-1730, `Talking Machine Show` remains a fun listen every week, via WWCR-2 stream, unlike 99% of the other stuff on WWCRs. At 1706, Phil Patton thanks Glenn Hauser for some nice comments about the show in DX Listening Digest - that was *many* years ago, so an evergreen show in rotation, suspect no `new` TMS being produced; from before WWCR blew WOR off as politically incorrect. Axually it`s almost all musicking, not talking. Long live lo-fi! (Glenn Hauser, OK, WOR)

** U S A. 9265, April 2 at 2222, WINB is S9+10/20 but JBM (Glenn Hauser, OK, WOR)

** U S A. 790 kHz, March 27 at 0700 UT, ``Mighty 790, KSVN`` sounded like, but no such call listed. In NRC AM Log, the only Mighty on 790 is KGHL Billings MT, U1 5000/1800. CBS news followed and that also fits for KGHL. Any station ending in -90 is tempted to brand itself rhymingly as ``mighty`` (Glenn Hauser, OK, WOR)

** U S A. Re my 790 log assumed to be KGHL Billings MT, Tim Hall replies: ``Another possibility: KFGO also runs CBS news, also uses the "mighty 7-90" slogan, and is phonetically more similar to KSVN.`` -- Tnx, Tim, yes, I overlooked that one in the NRC AM Log. Could be, but let`s compare their powers and direxionality: KFGO Fargo ND is U2 5000/5000, totally northward at night, while KGHL is U1 5000/1800, i.e. non-direxional day and night.

Then March 28 at 0634 UT slightly above the pileup, local weather with

a low of 24, I think, so in the North, but no further clues, 0637 into C2CAM. KFGO is on that net, not KGHL. Of course, by now it could be a totally different C2CAM station.

But meanwhile: ``Latest IRCA Slogans List compiled by Kraig Krist https://misc.kg4lac.com/irca/
lists 3 stations on 790 kHz with a "Mighty 790" slogan: KURM AR, KGHL MT and KFGO ND. 73 Alan`` Pennington, UK, and: ``KURM is silent acc. to FCC. 73, Mauno`` Ritola, Finland. And also as in NRC AM Log as of last August (Glenn Hauser, OK, WOR)

** U S A. 790, March 30 at 0705 UT, trying to catch whether it`s KFGO or KGHL, after CBS news, detailed local ``weatherscope`` and IDs instead as WSGW Saginaw MI, also on 100.5 FM - which is not a mere translator; U4 5/1 kW on 790 (Glenn Hauser, OK, WOR)

** U S A. 1290, March 28 at 0644-0647 UT, Mexmx and numerous liners/IDs as ``La Máxima ... más música`` something ``punto uno FM``, by SHVA = super-hype voice actor. Google search first on slogan and 1290 gets numerous hits for ``La Maxxima {sic} 103.1 FM`` in Siloam Springs AR, i.e. KUOA, U1 5000/31, address in Springdale, with 103.1 of course a mere translator, K276CO, per NRC AM Log, and in Fayetteville per Radio-locator.com with 1290 coverage maps showing it right on the OK border east of Tulsa, apparently a smidgin on the AR side. And address in Rogers AR. Unusual to hear it, so bet it`s on day power in the nightmiddle.  It`s 300 km = 186 stmi from Enid. Note recently Jan 27 at 0740 I had an open carrier on 1290. I don`t find any definite log by me of KUOA in the past 20 years. As of the 2020 census, S.S. population was 17,287, and as of 2023, that town had an increasing Hispanic population of 4,117, or 23.8% (Glenn Hauser, OK, WOR)

** U S A. 1420 kHz, March 27 at 0641 UT, ``La Caliente, 106.3 FM y 1420 AM`` = that leads in NRC AM Log to KBHS Hot Springs {Manantial/Aguascalientes} AR, U1 5000/87 - dominating, sounds like more than 87 watts. WTFDA FMDB has one frequency match for same station, but not so hot, only ``La Zeta``. 106.3 is of course a mere translator exalted to primacy, K292HG (Glenn Hauser, OK, WOR)

** U S A. 1530 kHz, April 1 at 0618 UT, Spanish CCI to WCKY, ID as on ``104.9 y 95.1, La Que Manda``, so it`s KZNX Creedmoor TX; U7 10000/220. I previously discussed its complex two-transmitter-sites near Austin. NRC AM Log gives only slogan as ``La Raza``. Of course we cannot be certain one slogan have totally replaced the other. WTFDA FMDB gets no hits when searching only on KZNX in the Relay of: field. One must enter instead KZNX 1530, getting only KTXX-FM on 104.9 in Bee Cave. To get K236AY on 95.1 in Westlake Hills one must search Relay of: on KZNX-1530 with the hyphen! Needs to be a bit more forgiving of such details or more consistent. In WTFDA it`s also only ``La Raza``. On 1530 I was really checking for the unID bluegrass/country music I had been hearing QRMing WCKY, but not tonight (Glenn Hauser, OK, WOR)

** U S A. 1650 kHz, April 1 at 0701 UT, still hearing continuous tone of about 311 Hz, presumably from KSVE El Paso TX (Glenn Hauser, OK, WOR)

** U S A. 1670 kHz, April 1 at 0655 UT, ``Black Information Network``, i.e. WMGE Dry Branch GA, address in Macon. No problem overcoming Virtual DJ Radio LP relay in Enid which is JBA in daytime a couple miles away (Glenn Hauser, OK, WOR)

UNIDENTIFIED. In high storm + line noise level, many `regular` ND beacons are not audible, but JBA carriers, March 28 at 0613 UT, likely: 245 kHz, FS Sioux FallS SD; 267 kHz, HET HenryEtTa OK; 392 kHz, FMZ, FairMont NE (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1061, March 28 at 0642 UT, JBA carrier hetting whatever`s left on 1060 without New Orleans. Not a 9/kHz plan frequency, which would be 1062. Suspect Cuba, like the 1-kHz-off 1141 often heard but not right now. WRTH shows one Cuban on 1060, 25 kW CMGW, Radio 26, Jovellanos, Matanzas (Glenn Hauser, OK, WOR)

UNIDENTIFIED [and non]. 1530 kHz, March 29 at 0638 UT, WCKY sportstalk has QRM from C&W music in English. Too many possibilities in NRC AM Log, all of them non-direxional, either daytimers or low-powered at night, so something is probably wrong at one of: KQSC CO 15 watts; WLIQ IL 1400-D; KDSN IA 13; KQNK KS 1000-D; WYGR MI 500-D; WWDX TN 1000-D (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1530, Mar 30 at 0712 UT, bluegrass/country music QRMing WCKY talk, presumably some station out of whack: see previous report for candidates. Tried to DF it but nothing certain; Spanish also in there presumably TX (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1650 kHz, March 28 at 0608 UT, still hearing the tone, not het, believed to come from KSVE El Paso, as I finally compared it to my keyboard = D# above C-middle, or 311 Hz per: https://homes.luddy.indiana.edu/donbyrd/Teach/MusicalPitchesTable.htm (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7200 LSB, March 30 at 0257, music mixed with talkovers, the naughty-ham channel; otherwise the bands are crammed during some contest (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 7636.0, March 31 at 0625, S9 open carrier except for JBA clix at rate of approx. 25 per minute. Too much noise on band to detect how far out the clickery expand this time. Previously logged March 4 and 8 at different clickrates, and several others ending in -6. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 9170-9217 approx., March 28 at 0620, multi-carrier multi-tones beating over this wide 47 kHz span, peaking S9 circa 9183, as logged recently in this same area. What is it? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 12159-12209, March 27 at 1446, huge multi-carrier, multi-tones beating over this wide 50 kHz range, tapering off at the edges, peaking circa 12193 at S9+25. 12160 WWCR not on yet, but after 1500 could be mutually problematic. What is this? (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 15230, March 30 at 0657, JBA music. HFCC A25 shows Iran at 0550-0820, also Xi`an, China at 03-09. Sirjan also at 0920-1250; DW via UAE at 14-15. Keep these in mind when guessing unregistered Cuba on one of its last barely funxional transmitters, most useful before 15 or 16 (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 21725, March 31 at 1536, JBA carrier is the OSOB. Nothing listed anywhen in A25 HFCC or EiBi, B24 Aoki. Believe this be real rather than birdie as it`s right-on frequency (Glenn Hauser, OK, WOR)
